The International Road Racing Championship (IRRC) is a championship which is held over 6 events (see calendar) and which are registered in the FIM Europe or FIM calendar. The contests are allowed by the national federation of the respective nations and meet the requirements of these federations.

The organization is in the hands of Hamove Hengelo Gld (NL), Frohburger Dreieck (D) and K.V. Ostend Motor Sport vzw (B).

2. Schedule 2017

This year's schedule is:

- 6 & 7 May : Hengelo - Holland

3. Licenses

It is mandatory that each participant has a license issued by a European federation, recognized by the FIM Europe or FIM.

The participant needs the authorization of his national federation in order to go abroad and to participate in contests appearing on the calendar of the FIM and FIM Europe.

The allocated license has to allow the participant to line up in the Supersport and / or Superbike class.

4. Races

6 contests are scheduled (see calendar) and the programme provides for 2 races in each contest. The races are driven according to the FIM regulations.

5. Training

For every contest, at least two trainings of minimum 20 minutes are foreseen.

Recording of the time is done by means of a transponder. Before every training or race, it is mandatory that each participant has a well-functioning and adequately charged transponder mounted on the motorcycle with which he will participate.

If a participant decides to use a personal transponder, he has to pass the number of the personal transponder to the time keeping at least one hour before the first training.

A contestant has to participate to at least one timed training during an event before he can participate in the races.

For each event there is a limited number of allowed participants. This means that it is possible that a candidate cannot participate to the race because he or she is not qualified. The qualification is determined by the fastest time of each contestant. The maximum qualifying time is equal to 120% of the average time realized by the three fastest riders of the class.

It is the decision of the organizer of the event to provide an additional competition for non-qualified contestants. This is not an obligation. If the organizer decides to provide 1 additional race for the non-qualified pilots, these pilots can only have once the points for the championship. If a championship rider or guest rider did not qualify, he cannot claim a refund of his fee.

The limited number of participants on each circuit will always be respected. If we have enough "Championship riders" for the event, no "guestriders" will be allowed, except when the organizer provides 2 additional races for the non-qualified riders.

The number of participants on each circuit is limited according the track homologation delivered by the national federation of the circuit.

6. Technical Inspection

The motorcycle and all accessories have to be presented for inspection by the Technical Inspection before they can participate in the training.

The choice of the tyres is not bound to any regulations.
